My 18 years of experience in the financial services industry has provided me with tremendous experiences in a wide array of markets and new paradigms. This experience has taught me the valued insight to managing risk in portfolios in order to optimize returns in uncertain times.

I was born and raised in Blaine, Minnesota and attended the University of Minnesota. I started my own business at the age of 16 in the Arabian Horse Industry and still maintain involvement today. In my younger days I was a semi-professional soccer player in California as a goalkeeper.

I began my career in the financial services industry in 1999 with Dean Witter and through 6 mergers or acquisitions I left Morgan Stanley to co-found MBKS Family Office in 2016. My team and I realize the struggles investors face today. My focus as your independent financial advisor is to customize, educate and present strategies that put your goals first and effect those strategies in a way that minimizes risk and maximizes returns. At MBKS Family Office our focus is to treat your family as if you are our own.

When outside of the office, my son Nik is an accomplished soccer player and my daughter Chloe loves to dance. My wife and I still are involved in Arabian Horses so you will find us traveling the country to various competitions and events.

My 15-plus years in the financial services industry shaped me into an advisor who takes the time to listen, educate, and establish plans with my clients and to partner with them on achieving their goals.

After growing up in beautiful Stillwater, MN I completed my undergraduate Bachelor of Arts degree from the University of St. Thomas in 2001.

I started my financial advising career with Salomon Smith Barney and spent fifteen years with the firm which eventually became Morgan Stanley. Wanting to continue my passion of advising families, offer a complete wealth management plan, and offer independent advice I co-founded MBKS Family Office in March 2016. My role as your advisor is to work alongside you, your family, and your other professional advisors to put a plan into place to address all areas of wealth management and family support. My goal is to help make the process less intimidating and easier to understand.

Outside of the office you will find me enjoying time with my husband and three kids at local and national parks, golfing, skiing, and lots of hockey!
